4 Background

Through the Provincial Development Unit, the Ministry is responsible for administering the Provincial Growth Fund (“PGF”), which aims to lift productivity potential in New Zealand’s provinces. Its priorities are to enhance economic development opportunities, create sustainable jobs, enable Māori to reach full potential, boost social inclusion and participation, build resilient communities, and help meet New Zealand’s climate change targets.

The Recipient is a Territorial authority.

The Kaipara District Council (the “KDC”) delivers all of the normal services of a District Council.

KDC’s role is to lead and represent their community, while considering the needs of people currently living in the District and those who will live there in the future. Core to KDC’s local governance role is providing a sustainable future for its ratepayers by maximising the opportunities available in the region.

Kaipara has historically been underfunded due to its low ratepayer base, however, with the assistance of the PGF there is a significant opportunity to unlock potential of the Kaipara harbour, through a number of above identified initiatives.

The KDC has identified 3 key “Kaipara Kickstart” initiatives for PGF support to make use of the districts potential whilst managing growth in a sustainable way. These three initiatives are aimed at building infrastructure and opening up land resources.

Growing the Kai in Kaipara, is one of the three projects in a combined “Kaipara Kickstart” package, with the other two projects focusing on Wharves/Ferries and Roads.

The Recipient has sought a funding contribution from the Ministry for the purposes of the Project described below. The Ministry has agreed to contribute funding on the terms and conditions of this Agreement (**Agreement**).

Key details of this Agreement are set out in this **Part 1**. The full terms and conditions are set out in **Part 2**. Defined terms and rules of interpretation are set out in **Part 3**.

5 Conditions Precedent

No Funding is payable under this Agreement until the Ministry has confirmed to the Recipient in writing that it has received, and found, in its sole discretion, to be satisfactory to it in form and substance, the following documents and evidence:

- Financial information - a final, updated, funds flow statement/model and budget setting out the funding and application of funds in relation to the Project and the financing

thereof, including all fees, costs and expenses (including taxes) in connection with the same.

6 Project Description

The aim of the Project is to unlock the potential of fertile land assets in the Kaipara through a Feasibility Study (building on the basis of a 2003 topo-climate study already performed) and Activation Plan to begin the transformation of idle land, to productive land. In addition, a local Kaipara Kai Transformation Hub (“the Hub”) will be opened to immediately begin assisting local farmers to investigate and introduce higher-value crops.

The Hub will initially employ one full time employee, and will operate from existing premises leased or owned by KDC. The office will be the hub in Kaipara for industry experts and stakeholders. It will provide a location for collaboration, and support development of horticultural opportunities and for transformation to high value crops. The office will be a base for organisations like **Commercial Information**

[redacted] etc) to define and understand the next steps in land development and support Kaipara’s transformation. The Hub will also connect employers and employment opportunities in horticulture and land development in the Kaipara.

The Feasibility Study will identify and analyse new areas and opportunities of interest and direct focus. It will build on the existing Government funded Topo-climate study which was undertaken on a region within the Kaipara district in 2003. The Topo-climate study interprets soils, maps the climate identifying cropping areas, and the best use of soils.

The Project will:

1. Open a Kaipara Kai Transformation Hub including key stakeholders to help locals navigate the process of transforming their land to higher-value crops.
2. Conduct a Feasibility Study and Activation Plan to:
 - a. Extend previous the Ministry of Economic Development funded Topo-climate study to whole of Kaipara District – extending previous application and geographic area
 - b. Explore new crop types, new animals, aqua-culture opportunities and options to adapt to climate change
 - c. Conduct commercial and financial analysis (e.g. encourage private sector investment and facilitate food clusters of different foods)
 - d. Develop a guide to assist locals through the process of moving to higher-value activities and encourage inward investment into Kaipara.

The Project is considered by the Recipient to be Phase one of a larger project. The eventual aim of the larger Growing the Kai in Kaipara project is to develop a potential **Commercial Inform** [redacted] hectares of fertile land into a sustainable horticultural hub. KDC, through its strategic relationships and the implementation of a Kaipara Kai Transformation Hub, intends to be the gateway for facilitating the development of these land assets.

Subject to clause 6.4 to Part 2, **Commercial Information**

Expected outcomes of the project which align with the PGF objectives:

- Creates permanent jobs - expected to be limited to one person for a year in this initial stage of the larger project. However should the initiative prove successful the impact could be significant.
- Delivers benefit to the community - Kai Transformation Hub will be assisting local farmers to investigate the viability and drive the transition to higher-value crops.
