

What impact has Kānoa funding had in the Manufacturing - Engineering sector?

44
organisations
funded

Manufacturing-engineering projects would not have happened without Kānoa funding. Virtually all of the funding into manufacturing-engineering sector projects resulted in business expenditure that would not have occurred without that funding.

Total
expenditure
impact
\$166m

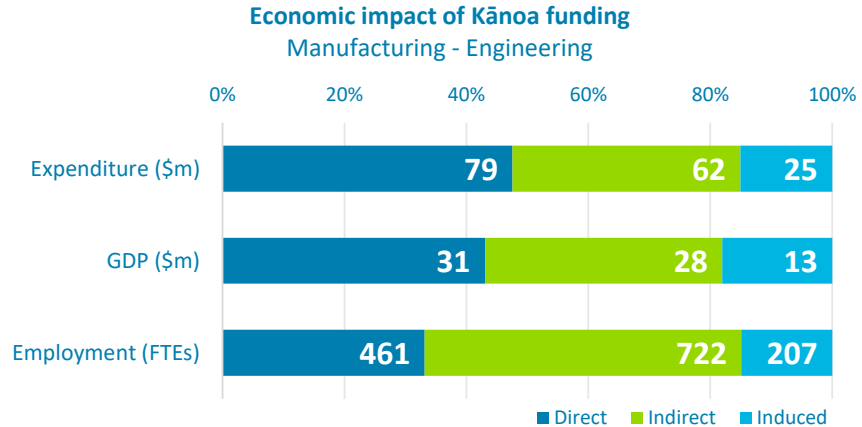

Total
GDP
impact
\$72m

Total
employment
impact
1,390 FTEs

Kānoa funding was a strong employment creator, with 1,390 FTEs created.

This equates to \$56,906 of direct expenditure per FTE.

Economic impacts result from:

Direct expenditure by the organisations funded

Indirect expenditure by other organisations that provided labour or supplies to the organisations funded

Induced expenditure generated by the spending of FTEs sustained by the direct and indirect expenditure
